

3K - The Theatre Workshop

In a rededicated church in the city centre of Mühlhausen, dramas, tragedies and comedies take place and fairy-tale words come alive, since the Theatre Workshop 3K has moved into this domicile.

On the opening of the Kiliani Church as youth culture centre in the year 2006, an important monument of Mühlhausen was saved. The church was near to decay. Now it is used by the Theatre Workshop 3K which together with young people develops and stages classic and modern plays for all age groups, thus creating a home for art, culture and communication. Established in 1991, the project received the cultural award of the State of Thuringia in 2000. You will find more information at www.3k-theaterwerkstatt.de
