

Children's Adventure World Rumpelburg Bad Langensalza

The fact that an old barn can turn into a paradise for children is proven by the Children's Adventure World Rumpelburg in the city centre of Bad Langensalza.

The world of the Rumpelburg is fancifully designed: over several levels, adventurous paths lead through grid tubes, net bridges and slides. In the oversized doll house, children immerse into a world of dream and fantasy. Tree houses with telescopes grant a view into the distance. The extensive play city in the outdoor area turns the children into teachers, explorers and policemen. Little bakers will find their vocation in the large sand and mud area. Thematic events and daily changing handicraft work offerings complement the programme of the Children's Adventure World.
