

Nature Park Centre Fürstenhagen

It is quite a challenge to solve the tower quiz in the Nature Park Centre in Fürstenhagen. But the correct solutions are hidden right before your eyes in the old water tower and in the rustic tree house.

You should not suffer from vertigo if you want to climb through the big tree house. But the climb is worth the effort. From up here, you have quite a different view – adults would say: a different perspective – of nature. By the way, this also applies to the exhibition in the old water tower. On four floors, you can find information about the region as well as on flora and fauna – that is on plants and animals. If you find these, you will be able to solve the tower quiz. Or you can pop in more frequently, because admission is free.
