

Wildcat Children's Forest

Do you feel like just romping around? Then the Wildcat Children's Forest is just the thing for you. The adventure playground in the middle of the forest promises a lot of fun – and conceals a great mystery.

Ten forest spirits were cursed in the Wildcat Children's Forest. Only if a child finds all of them on one day, they can be redeemed. The rescuer will be richly rewarded, the legend says. But up to now, nobody has succeeded. Perhaps you will find the forest spirits in their mysterious world? In any case, you will have a lot of fun at the adventure playground. Have a look whether you will detect the spider in its web or whether you will find your way in the wildcat climbing labyrinth. But be careful: the creep tunnel, the "Mausoleum", is only suitable for the really courageous ones.
