Stadsmuur / Bild Tino Sieland

From Mühlhausen to the Hainich National Park

The Line 30 connects the medieval Free City of Mühlhausen with the Wartburg City of Eisenach. Persons interested in culture who have already explored Eisenach will find in Mühlhausen another cultural-historic highlight of the World Heritage Region. The route of the Line 30 passes further attractive destinations. At the hill “Harsberg”, for example, near Lauterbach you can hike from the youth hostel “Primeval Forest Life Camp” over the 7 km long “Bummelkuppenweg“ to the symbol tree of the National Park – the “Betteleiche“ (Beggar’s Oak). Enthusiastic cyclists may change in Langula to the Unstrut-Werra Cycle Path.
