

Nature Park Eichsfeld-Hainich-Werratal

Naturpark Eichsfeld-Hainich-Werratal / Bild T. Sieland

Near the former border, unique cultural and natural landscapes have been preserved in the Nature Park Eichsfeld-Hainich-Werratal in the heart of Germany. Shell limestone plateaus with tall beeches and a large number of cliffs offer an impressive landscape in the Eichsfeld. Further to the south, the Werra river is meandering along rugged cliffs. In the southeast, the primeval forest of the Hainich National Park begins. Marvel at and enjoy the variety in the Nature Park.

Nature Park Centre Fürstenhagen

In the Nature Park Centre Fürstenhagen, near the spa town Heilbad Heiligenstadt, you can get an overview of the Nature Park and experience adventures with the whole family. It is an ideal place for hiking and bicycling and to inform oneself about the numerous Nature Park events and offers for children and young people. A visit to the adventure tree house is a “must”.
