

Mihla

The administration community is the ideal starting point for nature enthusiasts and people interested in culture. Insider tips like the Hainek Castle, the Grey Chateau of Mihla and the rococo church are a surprise to the visitor.

One of the most appealing long-distance cycle tracks in Germany leads through Mihla. The more than 300 km long, family-friendly and diversified Werratal cycle track connects the source of the Werra with the Weser estuary. A stopover in the jungle Life Camp Harsberg guarantees an adventurous expedition with rangers and jungle specialists. The museum in the town hall of Mihla offers an exciting collection of historical documents, furniture and photos. And afterwards, guests, bicyclers and hikers can cool down in the attractive open-air swimming pool of Mihla.
